Massachusetts Health Decisions is a nonprofit organization that provides public and professional education on ethical issues in health care. We work with health care organizations, administrators, clinicians and educators to develop programs that benefit people who provide care and those who receive it.

Massachusetts Health Decisions convened and staffed the Massachusetts Health Care Proxy Task Force (1991-1992) and continues to be the lead agency to promote use of the Health Care Proxy statewide. We distribute the Task Force Health Care Proxy in English and other languages and provide educational programs for health care facilities, private industry, and the general public. **All publications are copy protected and may not be reproduced without our written permission.**

We welcome your comments on any of our publications. For more information, please contact us at:

MASSACHUSETTS HEALTH CARE PROXY

PUBLICATIONS

Prices and Information

1. MASSACHUSETTS HEALTH CARE PROXY

This simple, self-instructive Health Care Proxy has become the most widely used form in the state since first published by *Massachusetts Health Decisions* in early 1991. The form is printed on heavy white stock, has detachable information and instruction pages, optional signature blanks for the named Agent and Alternate, and lists the 16 state-wide organizations of the Mass. Health Care Proxy Task Force. A distinctive "zebra stripe" on the margin helps for quick location in the record. (rev. 2015) Size: 8½ x 11; 4 sides

3. "USER'S GUIDE"

This 16-page booklet is the most informative publication *specific* to the Massachusetts Health Care Proxy. In question and answer format, the "User's Guide" addresses the most commonly asked questions: Whom shall I choose as my Agent? What instructions should I give? What if I have a Living Will? Can I change my mind? The guide includes two wallet cards, a resource list, and a task list for personal completion. This is an excellent information source not only for patients, residents, and their families, but also for health care providers, educators, and others seeking to provide solid, practical information to clients and the general public. (Revised, updated regularly)
(Size: 5½ x 8½; 16 pages)

5. "MAKING CHOICES ABOUT YOUR HEALTH CARE"

"Making Choices..." is a brochure which introduces advance directives and their importance to good health care planning. The various directives are described (Health Care Proxy, Health Care Power of Attorney, Living Will) and reference is made to the directive(s) recognized in each of the New England states. Also includes a brief resource list and user's check list. "Making Choices..." is a useful brochure for distribution by health care providers and other professionals such as lawyers and members of the clergy. Revised and updated. Size: 3½ x 8½; letter-fold)
